

# Post-Surgical Support Program

Helping you to manage your recovery  
after surgery

# Access to support for up to 6 weeks after surgery.

## Helping you to manage your recovery after surgery.

Recovery from surgery can be complicated. It can be hard to keep track and remember all the information and instructions you are given and to know what is best for your recovery.

Our Post-Surgical Support Program provides support and education to help you navigate your recovery and rehabilitation for up to 6 weeks after your surgery. Delivered by qualified health professionals the support will be tailored to meet your needs.

### **This support may include:**

- home visits to help set goals and develop an action plan
- education on managing your post-operative pain
- strategies to help track your medications and appointments
- assisting you to connect back with your treating GP and other health professionals
- ongoing phone support.

### **For more information:**
